Past Campaign in North Something of the History of the Nominee for Supt. of Public Instruction.

> Many questions have been asked about the personality of Gen. Thomas F. Toon, the nominee for Superintendent of Public Instruction. He was born in Columbu; county, in 1840, was educated at Wake Forest College graduated there in 1861, but May 20 of that year went in the (onfederate service as a private in the Twentieth North Carolina Regiment. He got a furlough and returned to the college, where he graduated in June, rejoined his regiment. H: was elected lieutenant, captain and colonel, by vote of his command, becoming colonel in 1863. In 1864, upon the wounding of Gen. R. D. Johnson. at Spottsylvania, Col. Toon, who was also wounded refused to leave the field, and for th's was made brigadler general in 1864 He was wounded 6 times, 5 times seriously, but fought all the while save

when in hospital.

The enthusiasm manifested over his nomination is due in no small degree to the earnest and active admiration of his old students and of those who knew him and his work as a teacher. His strength as a candidate and his success as an administrator in the i h office to which he will be called s the fact that by nature, by training and by association he represents the strenuous appeal of a situation for a man in this high office whose face is toward the public schools, who will stand for them, their extension, their improvement, as the paramount duty of the present hour. All our educational forces in the State will find in Co'onel Toon a fair-minded and able co-laborer who will deserve and com mand their respect and sympathy.

JOHN B. FARISS. XWINE OF CARDUIX HEALTHY OLD AGE.

I am 49 years old and have been suffering with Change of Life. I had flooding spells so bad that none thought I could live. My husband got me Wine of Cardui and it saved my life. I am like another person since taking it.

It is the devout wish of nearly all people to live to a ripe old age. None of us want to die young. This universal desire can be realized if care be taken of the health in early and middle life. A little precaution then will add many years to our existence. Death can be kept away a long time. Happy, healthy old age will be the lot of the woman who promptly corrects the ailments which afflict her sex. In youth, Wine of Cardui will take the female child safely over the dividing line between girlhood and womanhood. As a wife she needs it to help her through the trials of pregnancy and childbirth with as little discomfort as possible. At the Change of Life it will help her over the dangerous place that appears in her pathway between 40 and 50. Then will come many years of truly blissful existence. She will grow old slowly and gracefully. To the last she rill preserve that charm and beauty which are always characteristic of perfectly healthy grandmothers.

It is for women alone to decide whether they will be healthy or

JOHNSTON'S SARSAPARILLA as a Blood Food and Nerve Energizer, is the greatest SPRING MEDICINE ever discovered. It comes as a rich blessing from heaven to the "worn out," the run down, the overworked and debilitated. That "tired feeling," those "sinking spells," the languor and despondency which arise from badly nourished nerves, from thin, vitiated blood and an underfed body, vanish as if by a magic spell. The weariness, lassitude and nervous prostration which accompany the springtime and the heat of summer, are conquered and banished at once. For every form of neurasthenia, and all ailments of the brain and nerve, insomnia, hysteria and nervousness generally, it is almost a specific. It furnishes the very elements to rebuild worn-out nerve ssues. It feeds brain, nerve centers and nerves, calming and equalizing their action; a makes rich, red, honest blood. Newness of life, new hope, new strength follow its faithful use. It makes the weak strong, and the old young again.

It was the antiquated (but now happily exploded) method in the good old times, to treat Salt Rheum, Scrofula, Cancer and other troublesome disorders arising from BLOOD TAINT with powerful alteratives, such as mercury, arsenic and other mineral agents. It was expected by this treatment that the poison could be killed while the blood was left to course through its channels holding in its circulation the specific germs of the BLOOD TAINT with powerful alteratives, such as mercury, arsenic and other mineral disease. But in this way, every part of the body became more or less diseased. Nothing can be more terrible than a horribly destructive blood taint. It not only attacks virulently the different structures of the body, but many times the bones are honey-combed and destroyed. It often seeks out the nerves and spinal cord, and again it will bring decay and death to some vital organ, as the kidneys, liver or stomach. There is only one scientific method for the cure of blood taint. That is, PURIFICATION! Every particle of the blood must be removed through the execretory channels, the lungs, kidneys, bowels. liver and skin. "First pure, then peaceable." The great restorative, reconstructive and vitalizer of the blood, JOHNSTON'S SARSAPARILLA, not only radically and exhaustively removes the taint, but also removes all mercury, calomel and other minerals, and fills the veins and arteries with the ruby, glowing current of vitality. "The blood is the life." Good health means pure blood. The old and reliable remedy, JOHNSTON'S SARSAPARILLA, is universally regarded as the greatest Blood Purifier ever discov-

ered. This fact is now established beyond question or cavil. BLOOD POISON CURED BY JOHNSTON'S SARSAPARILLA.

Williams, Davis, Brooks & Co., Detroit:

Gentlemen:—In April last 1 began using JOHNSTON'S SARSAPARILLA for Blood Poison, caused by an amputation of one of my arms. 1 had SEVEN RUNNING SORES on my legs. 1 used two bottles and was entirely cured. I know it is what cured me.
